

June 2, 2009

The Honorable Nancy Pelosi
Speaker of the House
United States House of Representatives
H-232, U.S. Capitol
Washington, D.C. 20515

Dear Madam Speaker:

We are writing to express strong and unified opposition to H.R. 848, legislation that was voted out of the House Judiciary Committee by Chairman Conyers on Wednesday, May 13, 2009. H.R. 848 seeks to further burden the radio broadcast industry by requiring local radio to bear additional costs for the music which radio promotes and plays for free to the public.

We would also like to highlight that there is strong House opposition to the legislative effects of H.R. 848. H.Con.Res. 49, the Local Radio Freedom Act, introduced by Congressman Gene Green, currently stands at over 210 bipartisan cosponsors. Support for this resolution continues to increase on a weekly basis. The members signed on to H.Con.Res. 49 have expressed their opposition to the imposition of any new performance fee on local radio.

For more than 80 years, Congress has recognized the symbiotic relationship between local radio and the recording industry. The public outcry and recent controversy surrounding the mark up of H.R. 848 reflects the foreseeable negative consequences of the bill and the devastating impact it will have on local radio and the communities served with the delivery of emergency information, national defense information, news, weather, traffic, public service information and quality entertainment, including the introduction of new local and regional artists to the public.

The impact of H.R. 848 would also be hitting the radio broadcast industry in the midst of the terrible economic climate. America's radio broadcasters already pay half a billion dollars annually to composers and music publishers through ASCAP, BMI, and SESAC. Mandating additional payments that will most directly benefit the record labels puts Congress in the position of siphoning off of hundreds of millions of dollars from local radio markets throughout America and sending most of those dollars overseas where the majority of record labels are headquartered. The Judiciary Committee is in the process of asking the GAO to study the impact of the bill on small, religious and minority-owned stations whose existence and future growth would be devastated under H.R. 848. Moving the bill before that study has been completed, made public and is evaluated would place the cart before the horse.

Please help ensure that radio remains a viable voice and that H.R. 848 is not sent to the House floor for a vote. We sincerely hope that you will take our concerns into consideration and we look forward to your reply.

Sincerely,
